GROWTH & MONETIZATION

IAP & pricing · Subscriptions · A/B testing · ARPU/LTV · LiveOps

PRODUCT DESIGN

Economy balancing · Core loops · PRDs & GDDs · Unity & Figma

EXPERIENCE

SENIOR PRODUCT OWNER — UNITED TECH

JUL 2025 — PRESENT

AI-Powered Mobile Narrative / Dating Simulation · Contract · ending Sep 2026

- Own end-to-end roadmap and delivery for an AI-powered mobile narrative product, coordinating delivery across a 50-person organization.
- Rebuilt the team's Jira and backlog infrastructure from the ground up, increasing sprint throughput from roughly 5–10 shipped items per sprint to 30–50 (up to 5x).
- Lead cross-functional delivery across Product, Engineering, Design, Narrative, Art, and QA — running sprint ceremonies and aligning leads on priorities, dependencies, and release scope.
- Use retention, conversion, and monetization data to decide what ships — including which characters and seasons enter production; reworked the subscription model and offer structure, improving subscription conversion and monetization performance.

SENIOR PRODUCT MANAGER — BYTE

OCT 2024 — MAR 2025

Royale Online · MMORPG Mobile · Contract

- Led roadmap execution for a B2C mobile product, balancing new feature delivery against ongoing LiveOps commitments, and built the Jira reporting used for sprint tracking and stakeholder updates.
- Built and owned the Lucky Wheel monetization mechanic and localized offers by region, contributing to higher ARPU and regional sales; ran monthly LiveOps events on Firebase Remote Config.

EDUCATION

- 2026 — PRESENT

MSC IN INNOVATION AND TECHNOLOGY MANAGEMENT

Università Cattolica del Sacro Cuore, Milan — 50% Scholarship
- 2017 — 2021

EXPERIENCE CONT.

- LEAD TEAM MANAGER — UNIPOLY GAMES

MAR — SEP 2024

Six Cube · Survival PC Title, Steam · Full-time

 - Led the full in-house development team of 20 in a product leadership role, managing sprint planning, backlog tracking and task prioritization with agile methodology.
 - Led the title from early prototype through milestone delivery, owning scope, timeline and team coordination.
 - Designed progression, difficulty pacing and economy systems grounded in telemetry and playtest data.
- SENIOR PRODUCT MANAGER & DESIGNER — JOYGAME / NETMARBLE-AFFILIATED

MAR 2023 — FEB 2024

Partner Studios & LiveOps · Full-time

 - Improved early-stage retention on Wrestling Trivia Run! (#1 US App Store, 1M+ downloads) through iterative testing and LiveOps optimization, strengthening D3–D7 retention; on later projects, supported initiatives targeting D30 retention.
 - Primary B2B liaison for cross-border external development teams; contributed to the successful launch and growth of several partner-studio titles.
 - Planned and executed seasonal LiveOps campaigns — offers, events and content drops; delivered dashboards to HQ for retention, monetization and adoption tracking.
- PRODUCT MANAGER & DESIGNER — MAGICLAB

FEB 2022 — MAR 2023

Game Technologies · Casual / Puzzle Titles · Full-time

 - Contributed to a portfolio of titles that reached #1 on the US App Store — Meme Challenge: Dank Memes, Dream Wedding!, Destiny Run, Streamer Rush and Fun Race — with 220M+ combined downloads.
 - Designed and led Meme Challenge: Dank Memes end-to-end, from concept through launch — reached #1 on the US App Store with 10M+ downloads and an initial CPI of \$0.15.
- GAME PRODUCT DESIGNER — G PLAY STUDIO

MAR 2021 — JAN 2022

 - Managed agile backlogs, designed core mechanics and tracked key KPIs across product lifecycles for mobile titles built around short-session engagement.
- META SPARK AR DEVELOPER — FACEBOOK

JAN 2019 — JUN 2024

 - Created 120+ AR filters generating 47B+ impressions and earned top-200 placements in the Spark AR Cyberpunk 2077 and Holiday Spark competitions.
- GAME DESIGNER — HAPPY GAME COMPANY

JUN 2020 — FEB 2021

 - Designed and developed hypercasual games for my senior project, playtested by Rollic, a leading hypercasual publisher.
